

Mid Cross Section

If the weather is too bad to sit outside o  
under the awning we have a comfortable  
Sofa to sit on or lounge side to side - it is wide  
enough to ‘top and tail’ sitting opposite each  
other with our feet up

Side cushions  
Note: Angled back and side cushions  
for more comfortable seating position

Remove the side cushions and the sofa can  
double up as a 2nd short bunk if weather is too  
bad to erect the roof tent
